

interlock clip

The Interlock Clip is ideal for gripping your gloves, ear muffs, helmets, towels and just about anything else. The Interlock Clip can guard your gloves from getting lost.

The Interlock Clip features two gripping clips, joined by a holding cord. The teeth on each clip provides for a super grip.

The Interlock Clip holding cord and lugs are designed to separate and break from each other in the event of the item being held getting caught in machinery.

Manufactured from POM plastic, the Interlock Clips are a convenient tool to hold your gloves.

Sold individually. The clips are packed 100 pieces per bag and 6 bags per outer carton.

The clips can also be pad printed with a custom message or your logo.

AUSTRALIAN SAFETY WHOLESALERS

interlock belt clip

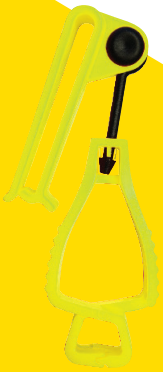

The new Interlock Belt Clip (patent pending) is now available.

The same Interlock Clip is used to grip your gloves, towels and helmets. It is attached to a rotation cord that connect with the belt slip.

The rotating cord allows for a more natural hand movement in attaching and detaching the gloves to the clip.

Sold individually. The clips are packed 100 pieces per bag and 6 bags per outer carton.
