LENS MARKING

'P' Platinum is a permanent coating applied on both sides of the lens that gives a high resistance to scratching (1.4 cd / m²) and to the most aggressive chemicals and delays the onset of fogging for two minutes, as per the testing requirements of EN166.

I The letter 'I' signifies 'Medium Impact' approval.

Ocular lens category:

1. Range of luminous transmittance 43–88% (CSP).
3. Range of luminous transmittance 8–18% (Smoke and Polarised).

Others symbols:

 Manufacturer name

TECHNOLOGIES

PLATINUM®

The new exclusive scratch and fog resistant PLATINUM® coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and effectively delays the appearance of fogging.

CSP

This innovating coating is an effective solution for all activities that alternate exposure to bright light and low light, while also being suitable for extreme hot and cold temperature environments. CSP is also combined with the exclusive PLATINUM® coating that sustainably combats fogging.

LENSES

- 2.2mm polycarbonate
- Platinum® anti-scratch/anti-fog coating: Smoke and CSP
- Anti-scratch coating: Polarised
- 99.9% UV 400 – Smoke, CSP and Polarised

FRAME MARKING

AS/NZS 1337.1:2010 Tested and approved to AS/NZS 1337.1:2010 for medium impact protection. Resists a 6mm at 45 m/s.

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

STORAGE: All products must be stored in a dry and clean environment.
